PERSONAL PROJECTS

FaceVibes: A Facial Emotion Recognition System
(03/2023 - 04/2023)

- Implemented Facial Emotion Recognition system using CNNs to classify human emotions from images with 70% accuracy. Used Keras, TensorFlow and Python.

Daily Wage Worker Management System (sponsored)
(01/2022 - 06/2022)

- Created a system to manage daily wage workers' records and monitor their entry and exit times. Reports can be generated for plant heads to detect fraud.

Online Multiplex Ticket Booking System
(03/2021 - 06/2021)

- Created an engaging web-based project with unique features that elevate it beyond typical booking websites. Its modern design and intuitive interface offer a delightful user experience, sure to impress and satisfy all users.

CERTIFICATES
